Project Description and Business Value:
Platform health checks for the various major Anthem environments to align with vendor recommendations and best practices.

Executive Summary:
Part of ongoing Data Center Services platform reliability efforts is conducting health checks on our major platforms. Anthem has a significant investment in these platforms and they require annual health checks to ensure they are optimized for performance, maximized for resource efficiencies, and risk is mitigated by leveraging experienced consultants both internal and external with proven best practices.. These health checks are documented and provide Anthem with a roadmap for continual improvement. Issues or improvements are scheduled and tracked through remediation efforts.
